

Shrirang Kahale

alias: albonycal • shrirangkahale1@gmail.com

Objective

Cybersecurity professional with a strong interest in ethical hacking, penetration testing, vulnerability analysis, and network security. Hard-working, energetic, personable, and technical-minded individual. Possess exceptional customer service and communication skills with the strong ability to multitask and resolve issues quickly. Currently in a cybersecurity role where I continue to develop and learn new abilities while contributing to the overall success of the organization. I also possess:

- Experience in scripting languages including Bash.
- Excellent task management. Ability to handle multiple projects simultaneously.
- Experience with security toolkits such as Kali Linux, Metasploit, and Burp Suite .
- Proficient in translating information from technical to executive/management terminology.
- Linux administration skills including managing servers and deploying virtual machines using hypervisors like proxmox.
- Network Administration skills including managing network, deploying DNS servers , OpenVPN & managing internal servers.

Courses & Certifications

- Practical Ethical Hacking (TCM sec)
- CCNA course (David Bombal)

Experience

2019 - Current Date

Learning linux & experimenting with the raspberry pi platform.

Bash scripting. Ethical Hacking , Penetration Testing & bug hunting

Deploying web servers & hypervisors like proxmox

Managing my home lab.

Projects

Github: github.com/albonycal

Opensource projects related to Ethical Hacking & linux related scripts & dotfiles

CTFs

I have participated in the following CTFs

Hacker101 CTF

Intigriti XSS Challenge

SecurityTrails ReconMaster Competition

GenericUniversity Vulnerable Application

OSINT Challenge

Volunteering

* Bugcrowd Tipjar

- Contributed to bugcrowd tipjar project, helped in gathering cybersecurity resources for beginners
