Shrirang Kahale
alias: albonycal • shrirangkahale1@gmail.com

Objective

Cybersecurity professional with a strong interest in ethical hacking, penetration testing, vulnerability analysis, and network security. Hard-working, energetic, personable, and technical-minded individual. Possess exceptional customer service and communication skills with the strong ability to multitask and resolve issues quickly. I also possess:

  • Experience in scripting languages including Bash & little bit golang
   • Excellent task management. Ability to handle multiple projects simultaneously.
   • Experience with security toolkits such as Kali Linux, Metasploit, and Burp Suite .
   • Proficient in translating information from technical to executive/management terminology.
   • Linux administration skills including managing servers and deploying virtual machines using hypervisors like proxmox.
     • Network Administration skills including managing network, deploying DNS servers , OpenVPN & managing internal servers.

Courses & Certifications
     • Practical Ethical Hacking (TCM sec)
     • CCNA course (David Bombal)

Experience
Self-teaching
Learning linux & experimenting with the raspberry pi platform.
Bash scripting. Ethical Hacking , Penetration Testing & bug hunting
Deploying webservers & hypervisors like proxmox
Managing my home lab.

Projects
Github: github.com/albonycal
Opensource projects related to Ethical Hacking & linux related scripts & dotfiles

CTFs
I have participated in the following CTFs
Hacker101 CTF
Intigriti XSS Challenge
SecurityTrails ReconMaster Competition
GenericUniversity Vulnerable Application
OSINT Challenge

Volunteering
* Bugcrowd Tipjar
- Contributed to bugcrowd tipjar project, helped in gathering cybersecurity resources for beginners
